

Ancillary Service Pricing Update Effective 06/01/2026

Service	Description	Fee
STAT – Onsite Collections	Post Accident, Reasonable Suspicion, including services required between 5pm-8am (If non-TADTS collector then cost from vendor + \$20 if exceeding TADTS 2024 pricing)	\$150.00/hr (2 hr min)
Onsite Collections	Onsite fee if the service required occurs between 8am-5pm Time fee is per Collector requested	\$55.00/hr (2 hr min)
Mileage	Mileage from port to port – The fee is per Collector requested	\$.75/mile
D&L Isomer Testing	The D&L test is an additional lab test to determine the specific positive methamphetamine metabolite(s). This test is required for completion of the medical review process and will be ordered without client authorization when it is not included by default.	\$100.00
6-MAM Testing	The 6-MAM test is a test for the presence of heroin. This test is required for completion of the medical review (MRO) process and will be ordered without client authorization in the case of a morphine positive when it is not included in the drug test panel.	\$100.00
THC-V Testing	This is an additional test to determine if a marijuana positive is due to a legitimate prescription source such as Marinol, Dronabinol or Sativax. For NONDOT cases, the client will be given the option to order this test.	\$275.00
Split Testing, DOT: i3screen manages the lab invoice	Split testing is offered during the medical review process. The donor has the option to have the sample sent to another SAMHSA- certified laboratory for reanalysis of the non-negative result. For DOT tests, our partner will be billed for this fee. The employer does have the right to seek reimbursement from the donor for this test as outlined in part 40 of the DOT regulations: https://www.transportation.gov/odapc/part40/40-173	\$275.00 Per Drug
Split or Aliquot Testing, NONDOT:	Split testing is offered on all applicable tests during the medical review process. For NONDOT cases in which a split collection was not completed, the donor has the option to have an aliquot (portion) of the original sample sent to another laboratory for reanalysis of the non-negative result. For NONDOT tests, unless payment is authorized by the client, the donor will need to provide payment prior to the split specimen processing.	\$275.00 Per Drug
DOT Supervisor Online Training (per person)	Mandatory Supervisor training for reasonable suspicion.	\$125.00
Breath Alcohol test	DOT or Non-DOT Breath Alcohol Testing (BAT) fee. Includes confirmation costs where necessary.	\$45.00
Program/Membership fee	Annual fee for inclusion in a TADTS managed random pool.	\$100.00 Per year
DOT Downgrade/Upgrade	Lab and MRO charge a fee for downgrading or upgrading a DOT specimen	\$75.00
